The Honorable Judge and
Members of the Commissioners Court of
Tarrant County, Texas
100 East Weatherford Fort Worth
Texas 76169

Dear Judge Whitley and County Commissioners:

We have performed an audit of the basic financial statements of Tarrant County (the "County") as of and for the year ended September 30, 2018 (the "financial statements"), in accordance with auditing standards generally accepted in the United States of America ("generally accepted auditing standards") and have issued our report thereon dated March 27, 2019, which included an emphasis paragraph related to the implementation of a new accounting standard and a reference to other auditors.

We have prepared the following comments to assist you in fulfilling your obligation to oversee the financial reporting and disclosure process for which management of the County is responsible.

This report is intended solely for the information and use of management, the Members of Commissioners Court, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Yours truly,

Deloitte & Touche LLP

cc: The Management of Tarrant County

Our Responsibility under Generally Accepted Auditing Standards

Our responsibility under generally accepted auditing standards has been described in our engagement letter dated September 10, 2018, a copy of which has been provided to you. As described in that letter, the objective of a financial statement audit conducted in accordance with generally accepted auditing standards is to express an opinion on the fairness of the presentation of the County's financial statements for the year ended September 30, 2018, in conformity with accounting principles generally accepted in the United States of America ("generally accepted accounting principles"), in all material respects. Our responsibilities under generally accepted auditing standards include forming and expressing an opinion about whether the financial statements that have been prepared by management with the oversight of Commissioners Court are presented fairly, in all material respects, in conformity with generally accepted accounting principles. The audit of the financial statements does not relieve management or Commissioners Court of their responsibilities.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether caused by fraud or error. In making those risk assessments, we considered internal control over financial reporting relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that were appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting. Our consideration of internal control over financial reporting was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses.

Significant Accounting Policies

The County's significant accounting policies are set forth in Note 1 to the County's 2018 financial statements. The County adopted Governmental Accounting Standards Board ("GASB") Statement No. 75 – *Accounting and Financial Reporting for Post Employment Benefits Other Than Pensions*. This standard required the liability of employers contributing to defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the OPEB plan's fiduciary net position. As a result, the County recognized an increase in its OPEB liability and a decrease in the beginning net position balance by a total of \$42 million. As a result, beginning net position was restated.

We have evaluated the significant qualitative aspects of the County's accounting practices, including accounting policies, accounting estimates and financial statement disclosures and concluded that the policies are appropriate, adequately disclosed, and consistently applied by management.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are ordinarily based on knowledge and experience about past and current events and on assumptions about future events. Our assessment of the significant qualitative aspects of the County's particularly sensitive accounting estimates has been attached to this report as Appendix A.

Uncorrected Misstatements

Our audit of the financial statements was designed to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. There were no uncorrected misstatements or disclosure items passed identified during our audit.

Other Information in the Comprehensive Annual Financial Report

When audited financial statements are included in documents containing other information such as the County's Comprehensive Annual Financial Report ("CAFR"), we read such other information and consider whether it, or the manner of its presentation, is materially inconsistent with the information, or the manner of its presentation, in the financial statements audited by us. We have read the other information in the County's CAFR and have inquired as to the methods of measurement and presentation of such information. We did not note any material inconsistencies or obtain knowledge of a material misstatement of fact in the other information.

Disagreements with Management

We have not had any disagreements with management related to matters that are material to the County's 2018 financial statements.

Our Views about Significant Matters That Were the Subject of Consultation with Other Accountants

We are not aware of any consultations that management may have had with other accountants about auditing and accounting matters during 2018.

Significant Findings or Issues Discussed, or Subject of Correspondence, with Management Prior to Our Initial Engagement or Retention

Throughout the year, routine discussions were held, or were the subject of correspondence, with management regarding the application of accounting principles or auditing standards in connection with transactions that have occurred, transactions that are contemplated, or reassessment of current circumstances. In our judgment, such discussions or correspondence were not held in connection with our retention as auditors.

Other Significant Findings or Issues Arising from the Audit Discussed, or Subject of Correspondence, with Management

Throughout the year, routine discussions were held, or were the subject of correspondence, with management. In our judgment, such discussions or correspondence did not involve significant findings or issues requiring communication to the Commissioners Court.

Significant Difficulties Encountered in Performing the Audit

In our judgment, we received the full cooperation of the County's management and staff and had unrestricted access to the County's senior management in the performance of our audit.

Management's Representations

We have made specific inquiries of the County's management about the representations embodied in the financial statements. In addition, we have requested that management provide to us the written representations the County is required to provide to its independent auditors under generally accepted auditing standards. We have attached to this letter, as Appendix B, those representations we obtained from management.

Emphasis-of-Matter or Other-Matter Paragraphs

As discussed in Note 18 to the basic financial statements, the County adjusted its beginning net position as of October 1, 2017, to reflect the impact of the implementation of Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Overview

Qualitative Assessment

Net Pension Liability—Accounting Estimate

The measurement of the County’s net pension liability and related costs for employers is subject to numerous actuarial assumptions including, but not limited to, the discount rate, expected return on plan assets, and mortality tables. As it relates to the liability, the Texas County and District Retirement System engages a third-party actuarial firm to assist in measuring the costs and obligations and performs procedures to evaluate the results. The County reviews the reasonableness of the assumptions used and records the appropriate adjustment to the liability based on these actuarial results. The County’s total net pension liability decreased approximately \$99.9 million from September 30, 2017 to September 30, 2018.

We involved Deloitte actuarial specialists to assess the reasonableness of the methodologies used and selected assumptions. Further, we performed detailed procedures to test the completeness and accuracy of the demographic data provided to the third-party actuarial firm. Based on the procedures performed, the methodology and underlying assumptions of the net pension liability appears reasonable.

Other Post-Employment Benefits—Accounting Estimate

The measurement of the County’s other post-employment benefits (“OPEB”) obligations and related costs for employees is subject to numerous actuarial assumptions including, but not limited to, the discount rate, Healthcare cost trend rates, and mortality tables. Biennially, Tarrant County engages a third-party actuarial firm to assist in measuring the OPEB obligation and the County performs procedures to evaluate the results. The County records the appropriate adjustment to the liability based on these actuarial results.

We involved Deloitte actuarial specialists to assess the reasonableness of the methodologies used and selected assumptions. Further, we performed detailed procedures to test the completeness and accuracy of the demographic data provided to the third-party actuarial firm. Based on the procedures performed, the methodology and underlying assumptions of the OPEB liability appear reasonable.

Further, the County implemented GASB Standard No. 75 during the current fiscal year. As a result of the standard implementation, beginning net position was restated to recognize an increase in the net OPEB liability of \$42 million. The liability as of 09/30/18 is approximately \$220 million.
